

Black and Minority Ethnic Voice and Influence Project Consultation

Do you work in a front line organization that is led by a black and minority ethnic (BME) community? Do you feel passionate about having a say on race equality issues that impact on the clients you work with? Do you think more could be done to support the growth and development of BME led organizations?

The Black and Minority Ethnic Voice project aims to support BME individuals, groups and organizations. This is your opportunity to get involved and to make a difference to the way race equality is addressed in the City.

The project is supported by VOSCUR, an infrastructure organisation and development agency for the voluntary, community, and social enterprise sector in Bristol, in partnership with Bristol City Council as well as a number of frontline BME led voluntary organizations. Voscur is keen to understand what it could do differently to ensure the service it provides reaches the BME voluntary sector and to hear what forms of engagement would work best for you.

If you are available to be interviewed please contact us. An online survey is also available and we encourage you to complete this by the 27th January 2012. The relevant link is below:
